

Mr Allan Siu

Maths and Science Teacher

asiu0@eq.edu.au

Qualifications:

Bachelor of Education (Secondary) Science and Chemistry
Certificate 3 and 4 Hospitality

As a Math and Science teacher in Calamvale I have had the pleasure to teach these subjects through all junior year levels, as well as the chance to prepare y Year 10 Chemistry students as they move forward into their senior year.

I believe in building the confidence of all my students as they progress through all my subjects and hope that my enthusiasm and passion for Maths/Science motivates them to reach their true potential.

I believe that as a teacher although the content of my subjects are important, I have a greater responsibility to ensure that my students develop into respectable and responsible citizens of our society who are not afraid to take risks and give back to the community as they move forward in their success.
