

Ms Tracey Gillis

Food Technology

tgill15@eq.edu.au

Qualifications:

Bachelor Education (Secondary) Home Economics

I am a multi-tasking educational rockstar who lives to inspire and loves to encourage others. I have been teaching for 30 years, the last 5 years at Calamvale Community College. I graduated with Bachelor Education (Secondary) Home Economics and am currently teaching Food Technology for Junior Secondary students. I have a passion for Food and Nutrition and seek to develop this passion in my students. I take my students on various design journeys where they learn how to collaborate as they investigate problems, projects and passions. As a teacher I am entrusted with the responsibility of developing more confident, curious and capable students in the kitchen and the world beyond school. I promote a very supportive, welcoming classroom, where diversity and uniqueness is celebrated.
